**TITLE: LaTeX TEMPLATE FOR A  
BACHELOR'S THESIS AT GHENT  
UNIVERSITY GLOBAL CAMPUS**

**SUBTITLE: VERSION 3.1**

First name Surname

Student number:

Supervisor(s): Prof. Dr. Name Surname

Counsellor(s): Name Surname

A thesis submitted to Ghent University in partial fulfilment of the requirements for the degree of Bachelor of Science in . . .

Department of Environmental Technology, Food Technology and Molecular Biotechnology

Chair: Prof. Dr. Taejun Han

Ghent University Global Campus

Academic year: 20xx - 20yy

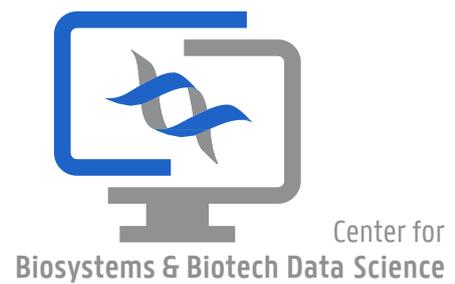

**GHENT UNIVERSITY**  
GLOBAL CAMPUS

This bachelor's project was conducted at the  
**Center for Biosystems and Biotech Data Science**

## EVALUATION COMMITTEE

Prof. Dr. Name Surname (Name of Institute, promoter)

Prof. Dr. Name Surname (Name of Institute, co-promoter)

Prof. Dr. Name Surname (Name of Institute)

Prof. Dr. Ir. Name Surname (Name of Institute)

Prof. Dr. Ir. Name Surname (Name of Company)

## ACKNOWLEDGMENT

Here goes the acknowledgment.

Name Surname  
Songdo, dd-mm-yyy

## **PERMISSION FOR USAGE**

“The author(s) gives (give) permission to make this bachelor’s thesis available for consultation and to copy parts of this bachelor’s thesis for personal use. In the case of any other use, the copyright terms have to be respected, in particular with regard to the obligation to state expressly the source when quoting results from this bachelor’s thesis.”

**STUDENT’S NAME:**

**STUDENT’S SIGNATURE:**

**DATE:**            dd-mm-yyy

## SUMMARY

Here comes the summary (about 15 to 20 lines, using multiple paragraphs), as shown below. The text of the summary makes use of 1.5 line spacing.

Deoxyribonucleic acid is a molecule that carries the genetic instructions used in the growth, development, functioning and reproduction of all known living organisms and many viruses. DNA and ribonucleic acid (RNA) are nucleic acids; alongside proteins, lipids and complex carbohydrates (polysaccharides), they are one of the four major types of macromolecules that are essential for all known forms of life. Most DNA molecules consist of two biopolymer strands coiled around each other to form a double helix.

The two DNA strands are called polynucleotides since they are composed of simpler monomer units called nucleotides. Each nucleotide is composed of one of four nitrogen-containing nucleobases (cytosine [C], guanine [G], adenine [A] or thymine [T]), a sugar called deoxyribose, and a phosphate group. The nucleotides are joined to one another in a chain by covalent bonds between the sugar of one nucleotide and the phosphate of the next, resulting in an alternating sugar-phosphate backbone. The nitrogenous bases of the two separate polynucleotide strands are bound together, according to base pairing rules (A with T and C with G), with hydrogen bonds to make double-stranded DNA.

### **Keywords**

Here come the comma-separated keywords (3 to 5 capitalized keywords in alphabetical order), as shown below.

DNA, Double Helix, Genetic Information, Macromolecules, Nucleic Acids

## **ABBREVIATIONS**

<b>A</b>	Adenine
<b>C</b>	Cytosine
<b>DNA</b>	Deoxyribonucleic acid
<b>G</b>	Guanine
<b>RNA</b>	Ribonucleic acid
<b>T</b>	Thymine

## **CONTENTS**

<b>EVALUATION COMMITTEE</b>	<b>viii</b>
<b>ACKNOWLEDGMENT</b>	<b>x</b>

# 1 INTRODUCTION

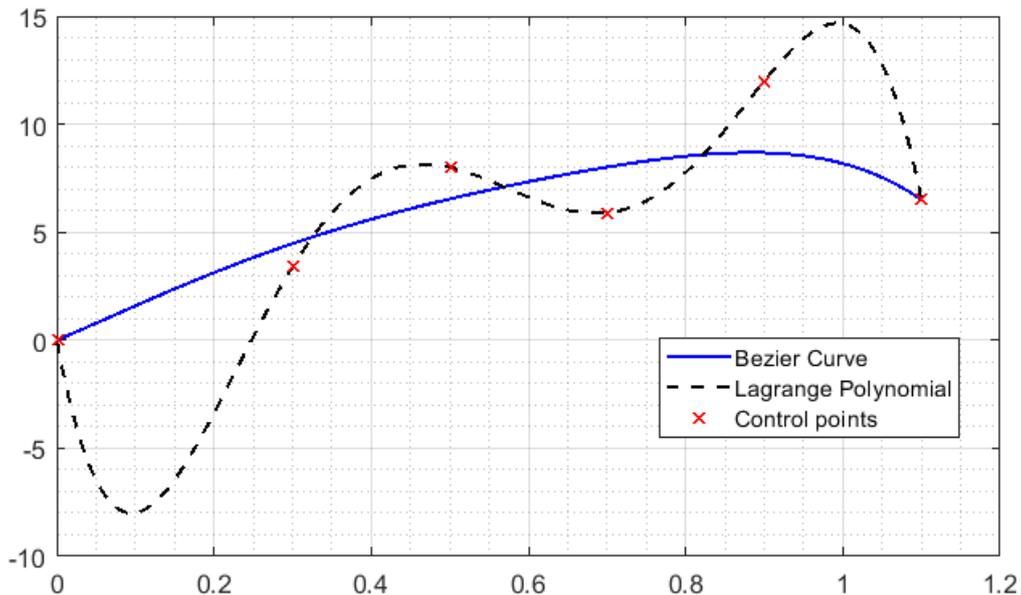

Here comes some text. This text makes use of 1.5 line spacing. For the references use [1].

For the tables use the format "Table 1" (see the folder "Tables").

**Table 1:** Leave-one-out cross-validation training errors for the considered mathematical model corresponding to the Bézier and the Lagrange approximations, respectively.

	<b>Bézier approximation</b>	<b>Lagrange approximation</b>
Training error	0.8233	0.6977

For the figures use the format "Fig. 1" (see the folder "Figures").

**Figure 1:** Comparison of the Bézier curve (highlighted in blue) and the Lagrange interpolating polynomial (highlighted in dashed black) defined by the same set of data points (highlighted in red) over the interval  $[0, 1.1]$ .

## 1.1 CONTEXT

Here comes some text. This text makes use of 1.5 line spacing.

## 1.2 CONTRIBUTIONS

Here comes some text. This text makes use of 1.5 line spacing.

## 1.3 OUTLINE

Here comes some text. This text makes use of 1.5 line spacing.

## **2 SECOND CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **2.1 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **2.2 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **2.3 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **3 THIRD CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

#### **3.1 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

#### **3.2 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

#### **3.3 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

## **4 FOURTH CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **4.1 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **4.2 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **4.3 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

## **5 FIFTH CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **5.1 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **5.2 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **5.3 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

## **6 CONCLUSIONS AND FUTURE WORK**

Here comes some text. This text makes use of 1.5 line spacing.

### **6.1 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **6.2 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

### **6.3 SUB-CHAPTER**

Here comes some text. This text makes use of 1.5 line spacing.

## APPENDIX A

Here comes some text. This text makes use of 1.5 line spacing.

## **APPENDIX B**

Here comes some text. This text makes use of 1.5 line spacing.

## APPENDIX C

Here comes some text. This text makes use of 1.5 line spacing.
